February 5, 2008

Dear Friends:

As I've come to know many of you during my tenure, we've spoken about our search for the ideal candidate to lead the Health Center's nursing department. I'm very pleased to announce that Tiffanie Riggs, R.N., B.S.N., has joined our team effective February 4, 2008, as the Director of Health Services.

Most recently serving as the compliance officer and marketing manager for Shortline Dental, Tiffanie previously worked at Inverness Village as the Director of Nursing. She received her degree from the University of Oklahoma, and brings more than a decade of experience working at various nursing homes and hospitals. In her expanded role here, she will oversee the nursing operations for the Health Center and provide leadership for the associates who serve your family members or loved ones.

One of the qualities that struck me during our conversations with Tiffanie is her genuine compassion for the residents. Her professionalism and concern for delivering the best services to the residents are evident.

Please help me welcome Tiffanie and introduce yourself next time you're visiting the community. As always, please let me know should you have any questions or concerns.

Regards,
